

Instructions for using Stata 14 SE (Network License)

OSX

(In order for the network connection of working outside the UZH network, you must, before you perform these steps, be connected to the VPN client)

Click "Go" -> "Connect to Server ..."

Enter in the field "Server Address" following address:

smb://pwifiles.uzh.ch/stata/14SE/osx/

Now enter your user name and password that you received from your administrator and click OK. (The username and password is the same as the credentials that you use on your computer in the office)

Now start "StataSE.app"

You do not have admin rights. Therefore disable Automatic Updates.
